Circular

30/12/2022

This is to inform that Zeroth Project Review has been scheduled on 05/01/2023.

During the Zeroth Project Review, students are asked to provide the project batch details and tentative title of the project.

Students' are asked to follow the guidelines given below for every review,

1. Students should prepare power point presentation for the project reviews.
2. Each batch should follow the schedule given strictly
3. The Presentation should contain ,

Introduction

Literature Survey

Proposed Methodology

Phases of Completion of Project

Role of each individual

4. Mark Distribution for First, Second and Third Review will be (100, 100 and 100) respectively.
5. Attendance for each review is compulsory and each student in a batch should explain the concept of their project.
6. Marks will be allotted as per the performance of each individual in the project.
7. Prepare the power point slides as points and not as a Paragraph. Each slide should have a title.
8. Do not copy the text that is available in the base paper for preparing the presentation. Read, understand the concept of the project and then prepare the power point slides on your own.
9. Power point slides should be well aligned and presented neatly. (A Sample power point presentation has been attached in the mail for your preparation).
10. Always get the consent of your internal guide before attending any reviews.
11. One page abstract with batch details (hard copy) should be submitted during the zeroth review.

12. Always bring your presentation slides in your mail.

Kindly follow the following guidelines for preparing the power point presentation for each review,

For First Review

Slide 1: Project Title, Students' name with register number and internal guide name with designation.

Slide 2: Objective of the project

Slide 3: Abstract of the project

Slides 4 to 10: Literature review (i.e. previous or existing work that is available related with your project). Select seven most related papers and explain them in each slide.

Slide 11: Proposed project work

Slide 12: Architecture Diagram

Slide 13: Division of your project as modules (modules should be divided as per number of students' in a batch)

Slide 14: Role of each individual.

Slide 15 to 19: Work done so far (with necessary screen shots)

Slide 20: Phases of completion of the remaining modules of the project

For Second Review

Slide 1: Project Title, Students' name with register number and internal guide name with designation.

Slide 2: Objective of the project

Slide 3: Abstract of the project

Slides 4 to 10: Literature review (i.e. previous or existing work that is available related with your project). Select seven most related papers and explain them in each slide.

Slide 11: Proposed project work

Slide 12: Architecture Diagram

Slide 13: Division of your project as modules (modules should be divided as per number of students' in a batch)

Slide 14: Role of each individual.

Slide 15 to 23: Work done so far (with necessary screen shots)

Slide 24: Phases of completion of the remaining modules of the project.

For Third Review and final end semester exam

Slide 1: Project Title, Students' name with register number and internal guide name with designation.

Slide 2: Objective of the project

Slide 3: Abstract of the project

Slides 4 to 10: Literature review (i.e. previous or existing work that is available related with your project). Select seven most related papers and explain them in each slide.

Slide 11: Proposed project work

Slide 12: Architecture Diagram

Slide 13: Division of your project as modules (modules should be divided as per number of students' in a batch)

Slide 14: Role of each individual.

Slide 15 to 24: Completed project (with all necessary screen shots)

Slide 25: Conclusion and future extension.

Slide 26: Thank You

Note

1. Number of slides for screen shots is not restricted. You can include as many as per the requirement of your project.
2. The complete demo of the project is necessary during the third review along with the presentation.
3. Strictly follow the order of slides and schedule for each review.
4. A rough copy (hard copy) of your project report should be submitted to the internal guide during the third review for getting correction and approval.
5. Each batch should submit one additional report (i.e if number of students in a batch is 4, they should submit 5 reports) along with Project working Demo video, a softcopy of report which contains their entire project source files and project report.
